Kerolos Atef Faragalla

+201212092100 | atefkerolos25@gmail.com | GitHub | Linkedin | Portfolio | Elmarg , Cairo, Egypt

Front-End Developer specializing in React with strong foundations in web development, UI design, and API integration. Experienced in building scalable, user-friendly web applications through hands-on projects such as e-commerce platforms, weather applications, and AI-powered university scheduling systems. Skilled in integrating backend APIs and performing testing using Postman, ensuring seamless data flow and functionality. Adept at collaborating within cross-functional teams consisting of UI and backend developers, effectively coordinating efforts as the primary frontend developer. Solid academic background with a Bachelor's Degree in Computer Science (2025) and multiple professional certifications, including a Frontend Development Diploma and .NET Full Stack training. Committed to delivering clean, efficient code and exceptional user experiences through modern tools and best practices.

SKILLS

- JavaScript (ES6+)
- TypeScript
- GitHub / Version Control
- RESTful APIs & GraphQL
- Postman (API Testing)
- Responsive Web Design Cross-
- UI/UX Collaboration with Figma
- Solving & Debugging React Hooks
- Handle API with React Query
- Performance Optimization
- Next.js
- React.js
- Tailwind &
- BootStrap CSS
- API Integration

PROJECTS

NEXT Advisory – AI-Powered University Scheduling System (Graduation Project) | Tech Stack: React, Vite, Tailwind CSS, Yup, Framer Motion Highcharts,jsPDF,Axios,.NET,C#,SQL,C++(GeneticAlgorithms) 5/2025

- Architected an AI-driven scheduling solution for universities, automating timetable creation and resource allocation.
- Applied advanced genetic algorithms to minimize conflicts and optimize usage of classrooms, professors, and materials.
- Delivered interactive dashboards with Highcharts and automated reporting tools with jsPDF for better administrative oversight.

FreshCart–Full-FeaturedE-CommercePlatform|TechStack:React,TailwindCSS,SweetAlert,Yup,Formik 8/2024

- Engineered a complete online retail platform with secure payment integration, order management, and an intuitive admin dashboard.
- Delivered a responsive, high-performance user interface through modular React components and scalable Tailwind CSS design.
- Enhanced shopping experience by implementing advanced form validation, streamlined checkout, and real -time product availability.

Yoummy–GlobalRecipe & Culinary Hub| TechStack : JavaScript , Bootstrap 6/2024

Developed a web platform showcasing international recipes with detailed preparation methods and ingredient sourcing.

- Built a clean, responsive interface using Bootstrap, increasing user engagement and accessibility.
- Integrated dynamic search and filtering features to improve usability.

Weather Forecasting Web App | TechStack : JavaScript , Bootstrap , RESTful API Integration 6/2024

- Created a real-time weather application retrieving data from the Meteorological Authority's API.
- Designed functionality for displaying current conditions and two-day forecasts for any global location.
- Implemented a mobile-first approach to ensure seamless access across all devices.

PROFESSIONAL DEVELOPMENT

Net Full Stack (72 hrs) - Summer training | Information Technology Institute | Jul 2024

- web Development Fundamentals (Earn acredential!) | IBM Skills Build | Sep 2023
- C++ programming | Unihance | Sep 2023
- Javascript For Beginners Complete Course | udemy
- Course and developed a final project for a potential startup | itida
- Web Development Fundamentals | IBM SkillsBuild
- JavaScript Essentials 1 course | Cisco Networking Academy in collaboration with OpenEDG JavaScript Institute
- SkillsBuild Digital Training Program Web Development Track | Kingdom of the Netherlands

EDUCATION

- Bachelor's Degree in Computer Science | Grade: Very Good | Nahda University - NUB | 2025
- Frontend development diploma (132 hrs) | Route IT Training Center | Mar 2024 - Aug 2024
  Jonas Course in JavaScript and REACT

- **Arabic:** Native
- **English:** Fluent

EXPERIENCE:

BEETLEWARE Company Internship | Front-End Devoloper (REACT | NEXT) | 4 - months
